Regular City Council Meeting

Tuesday, January 8, 2019

The Regular City Council Meeting scheduled for Tuesday, January 8, 2019, had to be cancelled because there wasn't a quorum of council members in attendance. Two were out on work and out of town, one was ill. No minutes were recorded.

Notes: Mayor Bedrick did allow an engineering firm that was invited and who drove from Ft. Worth for this meeting to discuss with council in attendance their role in road repairs, the importance of engineering the roads and ditches, and other factors involved in repairing roads so they will hold up for seven to 10 years instead of just one year. They explained how repairing the roads with professional help could be better than just repairing and patching every year with shrinking funds every year. They talked about an example of their work done with another area city.

Barbara Bedrick

City Secretary
